<b>Topical Fluoride Treatment (Office Procedure) D1206 - D1208</b>		
<p>Prescription strength fluoride product designed solely for use in the dental office, delivered to the dentition under the direct supervision of a dental professional. Fluoride must be applied separately from prophylaxis paste.</p>		
<ol style="list-style-type: none"> <li>1. Age limitations and benefits for these procedures are determined by the group contract.</li> <li>2. Fluoride gels, rinses, tablets, or other preparations intended for home application are not a benefit and are denied.</li> <li>3. A prophylaxis paste containing fluoride or a fluoride rinse or swish in conjunction with a prophylaxis is considered a prophylaxis only. A separate fee is not billable to the patient.</li> <li>4. If a patient is eligible for the HDS fluoride benefit, a D1206 or D1208 will be benefited, depending on the method used to deliver the fluoride.</li> <li>5. Refer to the current group benefit information for plans that include supplemental benefits (e.g., Evidence based plans, <i>Total Health Plus</i>) for certain diseases or medical conditions that places the patient at elevated risk for caries. Select patients may be eligible for an additional fluoride treatment (D1206, D1208) if they have specific diseases/conditions that increases the risk for caries. Examples of qualifying medical diseases/conditions may include: history of head/neck radiation therapy, methamphetamine use, xerostomia secondary to multiple medications, Sjogren's syndrome, and special needs patients (nursing home, dementia, arthritis). This supplemental fluoride benefit is not intended for patients who simply have poor oral hygiene and/or consume excess dietary sugar/carbohydrates. They must have a documented <u>medical</u> condition or medical risk factor to be eligible. <b><u>These specific medical conditions/diseases must be clearly documented in the patient's record.</u></b> <ul style="list-style-type: none"> <li>• This benefit is applicable to patients who are currently eligible by contract for the fluoride benefit or for a patient who is over the contract fluoride age limit.</li> <li>• Dentists must notify HDS of a patient's diagnosis of Medical Risk for Caries via HDS Online or a narrative in order for the patient to take advantage of these benefits.</li> </ul> </li> </ol>

<b>Other Preventive Services D1351</b>		
<u>General Guidelines</u>		
1. The preventive resin restoration (PRR) is a procedure (D1352) completed in a moderate to high caries risk patient. It includes the conservative restoration of an active cavitated lesion in a pit or fissure that does not extend into dentin; and includes the placement of a sealant in any radiating non-carious fissures or pits. The PRR involves the mechanical removal of decay with a bur or other instrument and cannot be delegated to a dental hygienist or auxiliary. The PRR (D1352) is not an HDS benefit and should not be reported as D2391 unless the existing caries extends into dentin.		
<b>D1351</b> sealant – per tooth		1 - 3, 14 - 16, 17 - 19, 30 - 32
Mechanically and/or chemically prepared enamel surface sealed to prevent decay.		
1. Sealants are benefits once per tooth on the occlusal surface of permanent molar teeth. The occlusal surface must be free from overt dentinal caries and restorations. Special consideration for late eruption can be given by report.		
2. Age limitations for this procedure are determined by the group contract.		
3. Repair or replacement of a sealant by the same dentist/dental office within 2 years of initial placement is included in the fee for the initial placement and is not billable to the patient. Repair or replacement of a sealant by a different dentist/dental office within 2 years of initial placement is denied and the approved amount is collectable from the patient.		
4. Repair or replacement of a sealant after 2 years is denied.		
<b>D1354</b> application of caries arresting medicament – per tooth		1-32, A-T
Conservative treatment of an active, non-symptomatic carious lesion by topical application of a caries arresting or inhibiting medicament and without mechanical removal of sound tooth structure.		
1. This procedure is covered under plans with a fluoride benefit and is not applied to D1206, D1208 frequency limits unless it is a group contract specific benefit		
2. For coding purposes, this procedure applies to silver diamine fluoride and silver nitrate only. D1354 should not be submitted if fluoride varnish or topical fluoride was placed.		
3. Benefits for silver diamine fluoride application are limited to:		
a. <b>Frequency:</b> twice per tooth per 12-month time period. Additional applications on the same tooth in the 12-month time period are denied.		
b. Six teeth per date of service are covered. Additional teeth on the same date of service are denied.
